

Intern – Corporate BI and Analytics

Indorama Ventures Public Company Limited, listed in Thailand (Bloomberg ticker IVL.TB), is one of the world's leading sustainable chemical companies, headquartered in Bangkok with a global manufacturing footprint across Europe, Africa, Americas, and Asia Pacific. The company's portfolio comprises Combined PET, Integrated Oxides and Derivatives and Fibers with a diversified asset base serving various customer segments.

IVL began as a producer of Polyethylene Terephthalate (PET) in 1995 and grew through backward integration into key feedstock while diverging into polyester fibers. Later, the company successfully built a vertically integrated and diverse business portfolio, becoming the largest producer of PET used in food and beverage packaging.

Indorama Ventures operates sustainably and has been focused on recycling developments since 2011, committing to increase its recycling capacity to 750,000 tons by 2025 with a US\$1.5 billion investment. We are working with several industry partners to achieve a circular economy for sustainable plastics and strongly support the global efforts underway to achieve the UN Sustainable Development Goals (SDGs).

IVL products serve major brand-owners and FMCG companies in consumer products and niche applications including food, beverage, hygiene, personal care, mobility, safety and more. Indorama Ventures has consolidated revenue of US\$10.6 billion in 2020 and a team of over 24,000 employees around the world.
